## **Documentation**

1. How to install the script?
2. How many features are included in the OTP System Addon?
3. What are the SMS gateways used in the OTP system addon?
4. How to configure the OTP system addon?
5. What is the registration process when the OTP addon is activated?
6. How does forget password work?

# How to in Details

## 1. How to install the script?

**Answer:** To install the OTP system you need to follow the below steps :

- **Active Matrimonial cms** should be **pre-installed** on your server.
- **Purchase** and **Download** the **OTP System Addon file**.
- **Login** in to your admin panel of the system
- Go to **Addon Manager**
- Click on **Install New Addon**
- Choose the **downloaded zipped file** and click on **Install**.
- After Installation, you will find the **OTP System Menu in your left sidebar** of the admin panel.
- Now you need to **configure the OTP System Addon**.

## 2. How many features are included in the OTP System Addon?

**Answer:** Below features are included in the OTP System:

- OTP For mobile registration
- OTP For forgot password
- Send SMS to members when a new account is created by admin.
- Send SMS to members when the admin approves their registration ( If member approval system is enabled).
- Send SMS on staff account opening by admin.
- Send SMS on manual payment approval.
- Send SMS on Express Interest.
- Send SMS on Accept Interest.

## 3. What are the SMS gateways used in the OTP system addon?

**Answer:** Three SMS gateways are used in OTP system addon. They are:

- Nexmo
- Twilio

- SSL Wireless
- Mimo
- Fast2Sms

#### 4. How to configure the OTP System Addon?

**Answer:** Follow the below instruction to configure the OTP system.

- Login in to your Admin panel and Go to **OTP System > Set OTP credentials** from the left sidebar.
- Activate that SMS gateway you want to use.
- Set the credentials for SMS gateways
- And click on Save.

The screenshot shows the 'ACTIVE MATRIMONIAL CMS' admin interface. The left sidebar lists various modules, with 'OTP System' and its sub-item 'Set OTP Credentials' highlighted in a red box. The main content area displays four configuration panels for different SMS gateways:

- Twilio Credential:** Includes an 'Activation' toggle (turned on, indicated by a red arrow), fields for 'Twilio Sid', 'Twilio Auth Token', 'Twilio Verify Sid', and 'VALID TWILIO NUMBER', and a 'Save' button (indicated by a red arrow).
- Fast2SMS Credential:** Includes an 'Activation' toggle (turned on, indicated by a red arrow), fields for 'AUTH KEY', 'ROUTE' (set to 'Promotional Use'), 'Language' (set to 'English'), and 'SENDER ID' (set to '6 digit SENDER ID'), and a 'Save' button (indicated by a red arrow).
- MIMO Credential:** Includes an 'Activation' toggle (turned off), fields for 'MIMO\_USERNAME' (set to 'username check') and 'MIMO\_PASSWORD' (set to 'password check').
- SSL Wireless Credential:** Includes an 'Activation' toggle (turned off), fields for 'SSL SMS API TOKEN' and 'SSL SMS SID'.

#### 5. What is the registration process when the OTP addon is activated?

**Answer:** The registration process is very easy when your OTP system addon is activated.

Step - 1:

- New users need to go to the Registration page.
- Users need to fill-up the form.
- They can use the phone number in lieu of email in the field named 'Email or Phone'.

- Click on Create Account.

## Create Your Account

Fill out the form to get started.

Step - 2:

- After clicking **Create Account**, users will be redirected to the phone number verification page.
- Their users need to put the code that is sent to their phone.

- And click on **Verify**.
- Users will get registered.

## 6. How does forget password work?

**Answer:** If any user forgets his/her password after registration using phone, he just needs to follow this below steps:

- Go to reset password page after clicking **Reset password using a phone** from the login page.
- Then he/she needs to put the previous OTP code that was sent to his/her mobile when he registered.
- He can set a new password.
- Finally, click on save.
